VOLUME CONTENTS

Volume 52 (1987)

PHYSIOLOGY AND BIOCHEMISTRY

Effect of SW26 and erythrosin B on ATPase activity and related processes in *Ricinus* cotyledons and cucumber hypocotyls
by J.H. Ball, L. Williams and J.L. Hall (Southampton, U.K.) . . . . . 1—5

The A1 (anthocyanin-1) locus in *Zea mays* encodes dihydroquercetin reductase
by A.R. Reddy, L. Britsch, F. Salamini, H. Saedler and W. Rohde (Köln and Freiburg, F.R.G.) . . . . . 7—13

Amino acid composition of the enzyme NADPH : protochlorophyllide oxidoreductase
by U. Röper, H. Prinz and C. Lütz (Cologne, F.R.G.) . . . . . 15—19

Hydrogen peroxide dependent *N*-demethylase activity in the leaves of normal and heat-shocked bean plants
by G. Gullner and E. Tyihák (Budapest, Hungary) . . . . . 21—27

Interference of pollen diffusable substances with peroxidase catalyzed reaction
by V. Zárský, L. Ríhová and J. Tupý (Praha, Czechoslovakia) . . . . . 29—32

Oxidative activities in soybean embryonic axes during germination
by S. Puntarulo, M.T. Beconi, R.A. Sánchez and A. Boveris (Buenos Aires, Argentina) . . . . . 33—39

Binding of photosynthetic fructose-1,6-bisphosphatase to chloroplast membranes
by A.R. Andrés, J.J. Lázaro, A. Chueca, R. Hermoso and J.L. Gorgé (Granada, Spain) . . . . . 41—48

GENETICS AND MOLECULAR BIOLOGY

Single gene mutants tolerant to NaCl in the fern *Ceratopteris:* characterization and genetic analysis
by T.R. Warne and L.G. Hickok (Knoxville, TN) . . . . . 49—55

Characterization of DNase(s) activity in tobacco leaf extracts
by A. Zilberstein, T. Koch, Y. Altschuler, A. Lers and A. Zamir (Tel Aviv and Rehovot, Israel) . . . . . 57—65

Kinetin modifies the secondary structure of poly(A) RNA in cucumber cotyledons
by G. Jackowski, A. Jarmolowski and A. Szweykowska (Poznán, Poland) . . . . . 67—72

Artificially induced fusions between *Chlamydomonas reinhardtii* and *Chlamydomonas smithii*, transmission of non-Mendelian traits in the fusion products
by R.F. Matagne, M.-R. Michel-Wolwertz and D. Dombrowicz (Liège, Belgium) . . . . . 73—79

CELL AND TISSUE STUDIES IN VITRO

The effect of auxin-like plant growth regulators and osmotic regulation on induction of somatic embryogenesis from elite maize inbreds
by K.R. Close and L.A. Ludeman (Palo Alto, CA) . . . . . 81—89

Separation of intact and damaged plant-protoplasts by using a cell-sorter equipped with a two-channel piezo valve chamber
by M. Bromova and U.C. Knopf (Freiburg, Switzerland) . . . . . 91—97

Histochemical assay of proanthocyanidin heterogeneity in cell cultures
by H.A. Stafford, H.H. Lester and R.M. Weider (Portland, OR) . . . . . 99—104

Leaf epidermal tissue is unsuitable to use for studying biochemical aspects of stomatal functioning
by C.M. Willmer, A. Jamieson and K. Birkenhead (Stirling, U.K.) . . . . . 105—110

Direct gene transfer by electroporation in *Brassica napus*
by P. Guerche, M. Charbonnier, L. Jouain, C. Tourneur, J. Paszkowski and G. Pelletier (Versailles. France and Basel, Switzerland) . . . . . 111—116

Variations of morphogenetic behavior and plant regeneration in cultured protoplasts of *Solanum nigrum*
by D. Sihachakr and G. Ducreux (Orsay, France) . . . . . 117—126

Malfunctioning stomata in vitreous leaves of carnation (*Dianthus caryophyllus*) plants propagated in vitro; implications for hardening
by M. Ziv, A. Schwartz and D. Fleminger (Rehovot, Israel) . . . . . 127—134

In vitro electroporation of tobacco pollen
by K.P. Mishra, D.C. Joshua and C.R. Bhatia (Bombay, India) . . . . . 135—139

GENERAL
Elimination of endogenous peroxides artifacts in immunoblots of plant extracts
by M.A. Villanueva and S. Malek-Heydayat (East Lansing, MI) . . . . . 141—146
A study of fertilization events in living embryo sacs isolated from sunflower ovules
by C. Zhou (Wuhan, China) . . . . . 147—151

PHYSIOLOGY AND BIOCHEMISTRY
Substrate inhibition of maize endosperm sucrose synthase by fructose and its interaction with glucose inhibition
by D.C. Doehlert (Peoria, IL) . . . . . 153—157
Isolation of vacuoles from developing oat leaves
by H.C.P.M. Van Der Valk, L.M. Plegt and L.C. Van Loon (Wageningen, The Netherlands) . . . . . 159—167

GENETICS AND MOLECULAR BIOLOGY
Cytokinin-induced changes in the population of translatable mRNA in excised pumpkin cotyledons
by C.-M. Chen, J. Ertl, M.-S. Yang and C.-C. Chang (Kenosha, WI) . . . . . 169—174
Induction of chitinases and of translatable mRNA for these enzymes in melon plants infected with *Colletotrichum lagenarium*
by D. Roby and M.-T. Esquerre-Tugaye (Toulouse, France) . . . . . 175—185
Esterase activity and isozymes during the ontogeny of stamens of male fertile *Lycopersicon esculentum* Mill., a male sterile stamenless-2 mutant and the low-temperature-reverted mutant
by S.K. Bhadula and V.K. Sawhney (Saskatoon, Canada) . . . . . 187—194

CELL AND TISSUE STUDIES IN VITRO
Morphogenetic and cellular re-orientations induced by *Agrobacterium rhizogenes* (strains 1855, 2659 and 8196) on carrot, pea and tobacco
by J. Bercetche, D. Chriqui, S. Adam and C. David (Paris and Orsay, France) . . . . . 195—210
Selection and characterization of cadmium tolerant cells in tomato
by B. Huang, E. Hatch and P.B. Goldbrough (West Lafayette, IN) . . . . . 211—221
Morphogenesis in lentil: plant regeneration from callus cultures of *Lens culinaris* Medik. via somatic embryogenesis
by P.K. Saxena and J. King (Saskatoon, Canada) . . . . . 223—227
Somatic embryogenesis and polyembryogenesis in Douglas-fir cell suspension cultures
by D.J. Durzan and P.K. Gupta (Davis, CA) . . . . . 229—235
Clonal propagation in vitro from immature embryos and flower buds of *Lycopersicon peruvianum* and *L. esculentum*
by R. Young, V. Kaul and E.G. Williams (Victoria, Australia) . . . . . 237—242

Subject Index Volume 52 . . . . . 243—246
Author Index Volume 52 . . . . . 247—248
Contents Volume 52 . . . . . 249—250
